solutions for your business**

Midmarket
Print Suite

Flexible & secure cloud-based print management solution for every aspect of your business

The eProductivity Software Midmarket Print Suite is a browser-based cloud-hosted scalable print Management Information System (MIS)/Enterprise Resource Planning (ERP) solution exclusively designed to help fuel long-term growth and performance through certified end-to-end workflows for printers of all formats - from commercial, display graphics, digital, offset, direct mailing, publication, in-plants, fulfillment, to folding carton. With advanced integrations to eProductivity Software industry leading enabling solutions, the midmarket print suite offers smart software solutions that:

- Drive new business revenue streams
- Accelerate response times to win more business
- Increase estimating capabilities and profitability
- Improve workflow automation and customer service

The suite empowers customers to take control of their production in new ways while optimizing resources and processes that help them effectively manage key operational processes like ecommerce, fulfillment, estimating, scheduling, purchasing, inventory, planning, imposition, shop floor data collection, job costing, receivables, payables, accounting, reporting and analysis, and shipping.

Cloud Based Hosting

The ePS hosting solution provides performance monitoring, virtual appliances, and ensures the highest possible security access, removing the burden for our customers to host it themselves, letting them focus on driving business.

End-to-end Workflows

The Midmarket Print Suite's end-to-end workflows leverage automation to improve production visibility, communication between stakeholders, and access to relevant and easy-to-understand data.

Real Time Visibility

From order acquisition through shipping, the Midmarket Print Suite solutions enable workflow optimization that will take your business beyond automation and transform how you interact with your customers.

Midmarket
Print Suite

Web-to-print

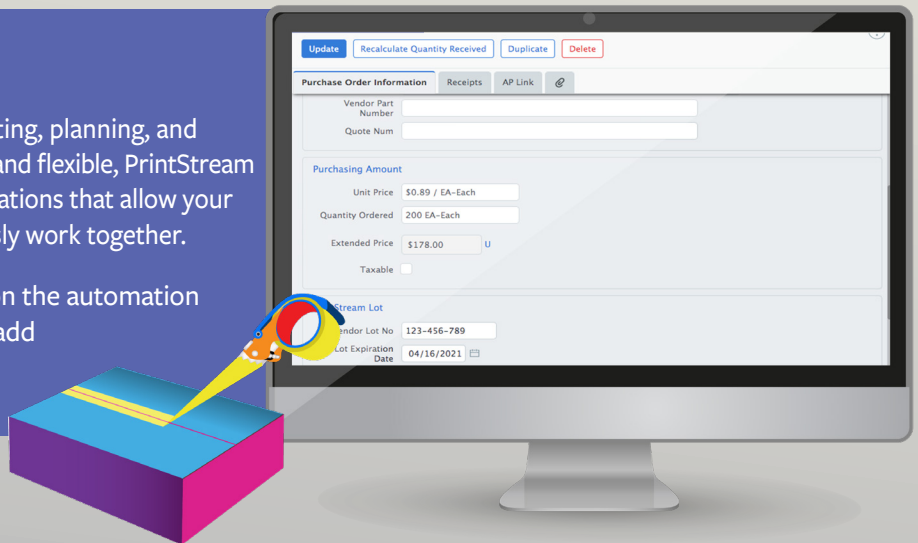

MarketDirect® StoreFront is a turnkey eCommerce solution that empowers print businesses to leverage web-to-print for growth. It enables printers to easily create digital storefronts that can provide integrated print and fulfillment services and expand their product and service offerings.

Fulfillment

PrintStream® Fulfillment is an intelligent marketing, planning, and distribution management system. Both powerful and flexible, PrintStream offers customization tools and web-based applications that allow your customers and your fulfillment team to seamlessly work together.

With MarketDirect Fulfillment, you can build on the automation and flexibility of the Midmarket Print Suite to add comprehensive inventory management and warehousing tools.

“Our strategy is ‘simplify and automate,’ and eProductivity Software Midmarket Print Suite is a central part of that — and a very big player in our workplace. We have grown 36% in the last four years with 20 fewer employees, and we can attribute a significant portion of that to our portfolio of eProductivity’s solutions.”

KIRK SCHLECKER

Vice President of Operations, Heeter

Enterprise Resource Planning

Pace is a future-ready print Management Information System (MIS)/Enterprise Resource Planning (ERP) workflow software solution that is the heart of our Midmarket Print Suite. Providing certified end-to-end workflows, Pace empowers transformation and optimization for your entire business, today and tomorrow.

Imposition

Metrix® is an award-winning layout planning tool designed to dramatically reduce planning and prepress labor cost. Metrix enables the transformation of big data into actionable data in the most proven end-to-end integrated solution with a holistic view into manufacturing.

“The eProductivity Software Midmarket Print Suite makes a fantastic difference to us, and we are running four to five times faster than ever before. It has given us new avenues, new opportunities, and is really the biggest thing to have happened to Interprint in the last five years.”

ANDREW BANYARD
General Manager, Interprint

Scheduling

Built specifically for the print industry, Pace Scheduling and PrintFlow® are dynamic scheduling solutions that enable you to increase profitable throughput with real-time visibility—allowing your operation to run as smoothly, flexibly, and efficiently as possible.

Shop Floor Data Collection

Auto-Count® 4D is a shop-floor production intelligence platform that allows accurate, up-to-the-minute production data collection directly from your equipment. Powerful traceability with minimal or no overhead allows quick and easy generation of a variety of compliance reports.

“*Visibility into the production process is very important. Before we implemented the eProductivity Software Midmarket Print Suite, we spent too much time inquiring about job status. Pace is now the brains of our workflow instead of working with a group of standalone systems. That enables us to quickly get a status of each individual title within a print on-demand order. It’s already made a huge difference in our workflow and that will only improve moving forward.*”

DIXIE SHAFFER

Director of Pre-Manufacturing Services, Books International

Digital Front Ends

The Midmarket Print Suite integrates with multiple digital front ends to drive workflow automation between MIS/ERPs and the digital rips. Such automation delivers job info directly to the rips allowing for the machines to report back time and material usage and production impressions while updating the production scheduling dynamically.

Shipping

Process Shipper is an award-winning, multicarrier shipping management software. By eliminating touch points, providing greater visibility, automating communication, and accelerating workflows, Process Shipper allows companies to lower costs and transform shipping departments into profit centers.

“What I really like about this system is that it gives us a lot of flexibility in reporting. It’s easier for me and the leaders I work with on my team to see the results of sales efforts in real-time. We can create, tweak, and get more data out easier. That’s been a real positive for the leaders of our shop.”

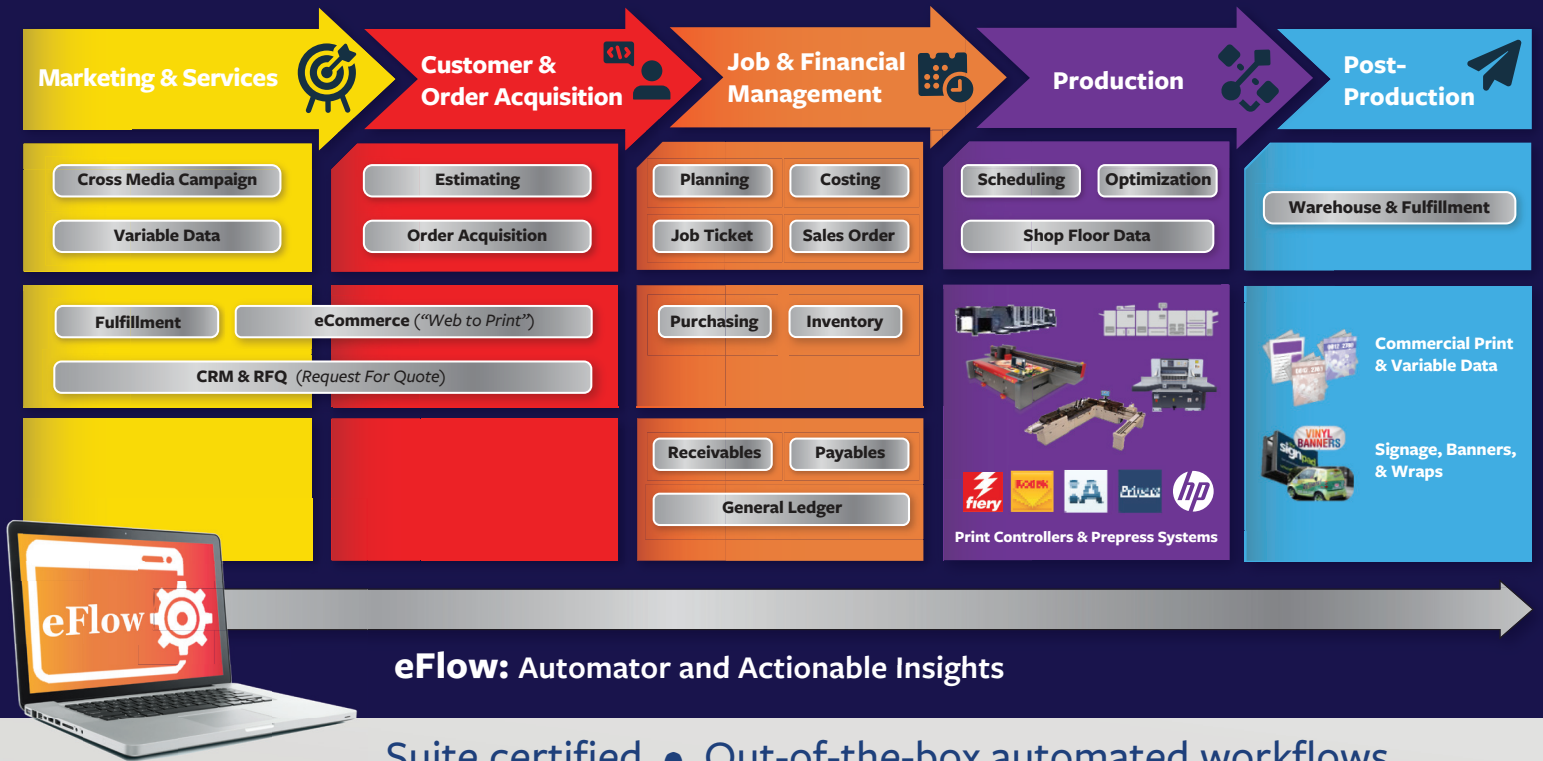

SCOTT WELLMAN

Sales and Marketing Director, AZPro
